- MIDDLE FRONT :** Injected WR zipper N°5 (Double sliders)
Contrasted teeths & tape + Snap button at bottom

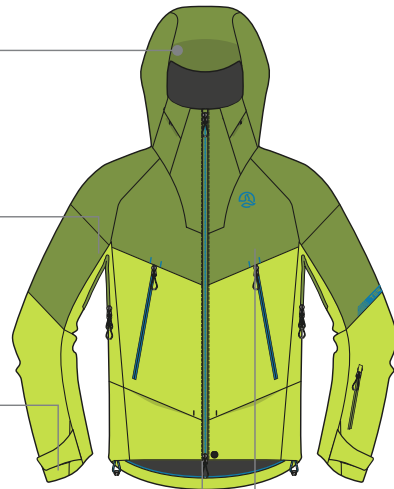

- HAND POCKETS :** Contrasted bonded & laser cut
WR zipper coil 3 + bonded preformed zipper garage
+ flat pleat at bottom (welded edge 1 cm)

HOOD :

- Back adjustments
- Snap button
- Inside neckline shell
- fabric tape to roll up hood

- Inserted velcro

- Preformed elbow by seams & darts

ACID LIME - 6933

NAUTICAL BLUE - 7570

FABRIC	91% Polyamide, 9% Elastane
FIT	Regular
SIZES	EU S-3XL US/CA XS-XXL
WEIGHT	700 g

FEATURES

Very complete jacket, developed with our professional mountaineering "Friends", which incorporates all the technical features required by climbers and mountaineers. The Mauna Kea Jacket uses a "4 way stretch" (multi-elastic) Shelltec Active Flex (20k/20k) fabric to offer maximum protection in very adverse weather conditions.

Specifications

- Very strong recycled polyamide fabric.
- Waterproof and breathable thanks to the Shelltec Active Flex membrane (20k/20k).
- Ergonomic design for exceptional freedom of movement.
- Compatible and fully adjustable for use with a mountaineering helmet.
- Long neck protection for maximum facial protection in storms.
- Articulated elbows.
- Slightly longer back for added protection in bad weather.
- Two map-sized zipped water-repellent hand warmer pockets positioned for accessibility when using a harness.
- Interior flap behind the front central zip for protection against storms.
- Detachable snow skirt to prevent snow from entering.
- Soft and napped microfleece in the area of the mouth and chin.
- Two large mesh interior pockets for glasses, gloves or small bottles.
- Water-repellent underarm zips for ventilation.
- Velcro cuff adjustment, compatible with winter gloves.
- Regular fit.
- Adjustable hem with cord lock.
- Fabric with PFC-free water-repellent treatment.
- Bluesign certified fabrics.

RAKAPOSHI JKT M 1643697

NECTARINE - 6268

HIGH TIDE - 6263

LEMON CURRY - 6158

FABRIC	85% Polyester 15% Poliurethane
FIT	Regular
SIZES	EU S-3XL US/CA XS-XXL
WEIGHT	660 g

FEATURES

Fully featured jacket, developed specially and initially for the Ternua Japanese alpinists Kazuya Hiraide and Kenro Nakajima (Golden Axe Alpinist Award 2020), that has all the technical requirements of climbers and alpinists in mind, the Rakaposhi Jacket uses a durable 4 way stretch Schoeller Aerobrane membrane (10k/90k) to provide ultimate weather protection.

- Brushed and soft microfleece next to the mouth and chin
- Recycled fabric
- Ergonomically designed for super-fluid movement
- Waterproof and breathable thanks to the Schoeller Aerobrane membrane (10k/90k)
- Long collar offers maximum storm protection to the face
- Underarm W&T water repellent zippers for ventilation
- Ski pass pocket on left hand sleeve with W&T water repellent zippers
- PFC free W&T water resistant zippers
- Schoeller Ecorepel PFC free DWR
- Bluesign® approved fabrics
- Adjustable hem with drawcord and cordlocks.
- Detachable snow skirt to prevent weather entry
- Two map sized hand-warmer pockets with W&T water repellent zippers positioned clear of climbing harness belt
- Inner storm flap behind centre front zipper
- Regular fit
- Articulated elbows
- Two big mesh pockets on the inside for goggles, gloves or water bottle
- Slightly longer back for enhanced weather protection
- Gusseted cuffs with velcro that are compatible with winter gloves
- Fully adjustable climbing helmet compatible.

Gold Winner

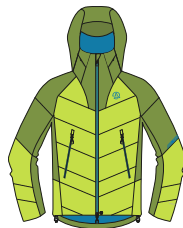

AMPHU JKT M 1643758

- Ergonomically designed to offer exceptional freedom of movement.
- Filled with 250 g of PrimaLoft Gold Luxe, the highest performance synthetic insulation available.
- Integrated hood also filled with PrimaLoft Gold Luxe and compatible with the use of a helmet.
- Two pockets for the hands with YKK zips.
- Adjustable hem with cord lock.
- Cuffs with interior elastic.

NAUTICAL BLUE - 7570

ACID LIME - 6933

SHELL, LINING	100% Polyamide
PADDING	100% Polyester
FIT	Regular
SIZES	EU S-3XL US/CA XS-XXL
WEIGHT	620 g

FEATURES

Very lightweight hooded jacket with PrimaLoft Gold Luxe insulation. Designed for fast-moving winter activities. Filled with 250 g of PrimaLoft Gold Luxe, the highest performance synthetic insulation available. It combines incredible packability and softness that imitates goose down, all with excellent water repellency for protection against wet weather. Top quality and high thermal capacity. Perfect for high intensity winter activities where weight is a major factor.

With an exterior made of water-resistant Pertex Quantum fabric (PFC-free DWR) and on the inside as a lining a lightweight and hard-wearing 10D Microshell fabric. Very compressible and completely windproof and breathable.

Specifications

- Regular fit.
- Ergonomically designed to offer exceptional freedom of movement.
- Pertex Quantum outer fabric.
- 10D recycled Microshell interior fabric.
- Filled with 250 g of PrimaLoft Gold Luxe, the highest performance synthetic insulation available.
- Integrated hood also filled with PrimaLoft Gold Luxe and compatible with the use of a helmet.
- Two pockets for the hands with YKK zips.
- Adjustable hem with cord lock.
- Cuffs with interior elastic.
- PFC-free DWR.
- All the fabrics are recycled from the recycling of post-consumer plastic bottles.
- The fabrics are Bluesign certified.

SHARPU 2.0 JKT M 1644025

NAUTICAL BLUE - 7570

BLACK - 9937

SHELL, LINING	100% Polyamide
PADDING	100% Polyester
FIT	Regular
SIZES	EU S-3XL US/CA XS-XXL
WEIGHT	480 g

FEATURES

Very lightweight jacket ideal for use as a second layer or as an outer layer in favourable conditions. With an exterior made of recycled water-resistant Pertex Quantum fabric (PFC-free DWR) and with a lightweight and hard-wearing recycled 10D polyamide lining on the inside. The interior insulation consists of 80 g of PrimaLoft Gold P.U.R.E. technology insulation, which offers a high degree of insulation even in wet conditions using a new manufacturing technology based on air instead of the heat of an oven to produce the PrimaLoft insulation. As a result, a significant reduction in carbon emissions is achieved. Very lightweight and compressible, can be stored in its own pocket and is totally windproof and breathable.

Specifications

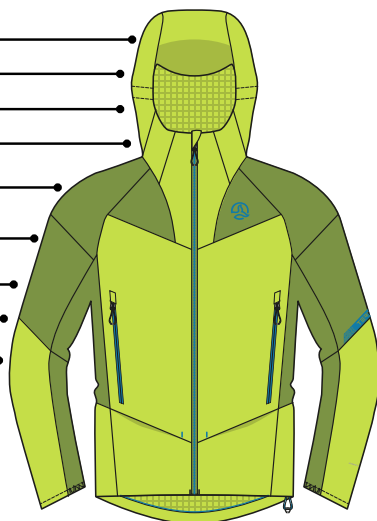

- Regular fit.
- Ergonomically designed to offer exceptional freedom of movement.
- Pertex® Quantum recycled outer fabric.
- PrimaLoft gold P.U.R.E. technology.- Offers a high degree of insulation even in wet conditions using a new manufacturing technology that achieves a significant reduction in carbon emissions.
- 10D recycled polyamide interior fabric.
- Two pockets for the hands with YKK zips located for accessibility when using the harness.
- Adjustable hem with cord lock.
- Elasticated cuffs.
- PFC-free DWR.
- All the fabrics are recycled and come from the recycling of post-consumer plastic bottles.
- The fabrics are Bluesign certified.

JUGAL JKT M 1643770

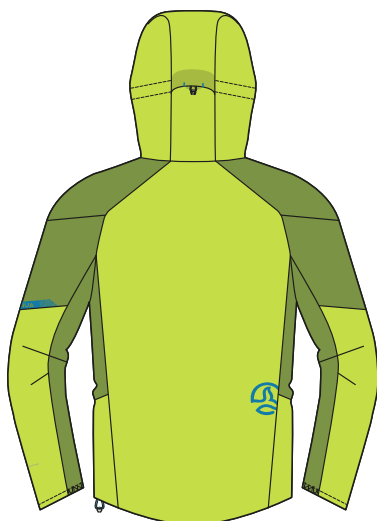

- High wind resistance.
- Highly water resistant.
- Very breathable.
- Warm.
- Articulated pattern for greater freedom of movement.
- Hood compatible for use with helmet and 3D adjustable.
- Cuffs with soft elastic fabric.
- Two pockets with zips for the hands.
- Adjustable hems with elastic drawstring.

FABRIC	91% Polyamide, 9% Elastane
FIT	Regular
SIZES	EU XS-XXL US/CA XXS-XL
WEIGHT	650 g

FEATURES

Very complete trousers, developed with our professional mountaineering "Friends", which incorporate all the technical features required for your activity. The Alpine Pro trousers use a "4 way stretch" (multi-elastic) Shelltec Active Flex (20k/20k) fabric to offer maximum protection in very adverse weather.

Specifications

- Very strong recycled polyamide fabric.
- Regular fit.
- Waterproof and breathable thanks to the Shelltec Active Flex membrane (20k/20k).
- Ergonomic design for maximum freedom of movement.
- Preformed/articulated knees.
- Two hand warmer pockets with W&T water-repellent zips.
- Front military style pocket with W&T water-repellent zip.
- Side openings for ventilation with W&T water-repellent zip.
- Interior gaiter.
- Removable straps.
- Waist adjustable with Velcro.
- Reinforcement at the bottom.
- Fabric with PFC-free water-repellent treatment (DWR).
- Bluesign certified fabrics.

AZALEA - 1983

BLACK - 9937

FABRIC	58% Polyamide, 32% Wool, 10% Elastane
FIT	Regular
SIZES	EU XS-XXL US/CA XXS-XL
WEIGHT	445 g

FEATURES

Technical regular fit pants for serious mountain activities—made with Shellstretch pro wool, a blend of a durable 4 way stretch recycled nylon coming from the recycling of fishing nets (red-cycle project) on the outside and 30% merino wool on the inside that provides perfect moisture and temperature regulation. The natural fibers wick up moisture, transporting them to the outside so that the inside stays dry and comfortable on the skin.

Specifications

- Regular fit
- Very resistant
- Warm and breathable
- Ergonomically designed for super-fluid movement
- 2 front hand pocket
- 1 cargo pocket
- Adjustable waist with velcro
- Hem armortex reinforcement
- Zip adjustable hem to use with wider boots.
- Inner detachable gaiter
- Recycled nylon (red-cycle project)
- PFC free DWR
- Bluesign approved fabrics

FRONT, HOODY & SLEEVES DETAILS FABRIC	88% Polyamide, 12% Polyester
LINING	100% Polyester
FIT	Regular
SIZES	EU XS-XXL US/CA XXS-XL
WEIGHT	370 g

FEATURES

Multifunctional insulating, semi-warm, windproof, lightweight and compressible technical jacket made entirely from recycled fabrics. The 2 outer MICROSHELL layers (plain and ripstop) provide protection against wind, water repellency and abrasion resistance, while the internal thermal insulation and humidity control are provided by the inner lining in WARMHELL BREATHE. The 3 combined fabrics offer an innovative and high performance garment, especially suitable for cool and windy days. • Works perfectly as an outer layer or as a semi-warm second layer with a shell on top. • The ergonomic design and bi-elastic outer fabric provide very high levels of comfort and freedom of movement for a wide variety of mountain activities. • 2 pockets for the hands and 1 chest pocket. • Hem adjustment with one hand. • Inner lining with POLYGIENE® antibacterial treatment. Prevents odours. • Very compressible jacket for easy transport in the accessory bag. • 20D and 39 g/m² pre-consumer recycled nylon outer fabric. • Insulated interior fabric in post-consumer recycled polyester. • PFC-free water-repellent treatment (DWR). • BLUESIGN® certified fabric.

- Whether you're hiking, climbing, kayaking or swimming, or just as a comfortable pair of shorts to wear during the summer, seamount shorts can be a great option
- They are lightweight, durable, and made from 100% post-industrial recycled nylon
- They have a water repellent treatment that is free of PFCs
- All the materials used are of the same material (polyamide) to facilitate recycling once it reaches the end of its useful life
- Very versatile, they can be used in mountain and sea activities, hence the origin of their name
- Bluesign certified fabric

Backpacks

Made of 100% recycled fabrics and with PFC-free water-repellent treatment. Versatility. Comfort

A new collection designed for people with an adventurous spirit who enjoy trekking, hiking, travelling or other outdoor activities. Backpacks in which versatility and comfort go hand in hand.
