- Inside neckline shell fabric tape to roll up hood

Inserted velcro

Preformed elbow by seams & darts

MEDITERANEEN - 8880

ACID CITRUS - 8876

FABRIC	91% Polyamide, 9% Elastane
FIT	Regular
SIZES	EU S-3XL   US/CA XS-XXL
WEIGHT	700 g

**FEATURES**

Very complete jacket, developed with our professional mountaineering "Friends", which incorporates all the technical features required by climbers and mountaineers. The Mauna Kea Jacket uses a "4 way stretch" (multi-elastic) Shelltec Active Flex (20k/20k) fabric to offer maximum protection in very adverse weather conditions.

**Specifications**

- Very strong recycled polyamide fabric.
- Waterproof and breathable thanks to the Shelltec Active Flex membrane (20k/20k).
- Ergonomic design for exceptional freedom of movement.
- Compatible and fully adjustable for use with a mountaineering helmet.
- Long neck protection for maximum facial protection in storms.
- Articulated elbows.
- Slightly longer back for added protection in bad weather.
- Two map-sized zipped water-repellent hand warmer pockets positioned for accessibility when using a harness.
- Interior flap behind the front central zip for protection against storms.
- Detachable snow skirt to prevent snow from entering.
- Soft and napped microfleece in the area of the mouth and chin.
- Two large mesh interior pockets for glasses, gloves or small bottles.
- Water-repellent underarm zips for ventilation.
- Velcro cuff adjustment, compatible with winter gloves.
- Regular fit.
- Adjustable hem with cord lock.
- Fabric with PFC-free water-repellent treatment.
- Bluesign certified fabrics.

# MAUNA KEA PT M 1274026

New Colors

Adjustable waistband by welded placket  
+ removable suspenders  
- Welded loop  
- Welded placket + inserted large velcro

- Side openings for ventilation with W&T water-repellent zip.
- Interior gaiter.
- Removable straps.
- Waist adjustable with Velcro.
- Reinforcement at the bottom.
- Fabric with PFC-free water-repellent treatment (DWR).
- Bluesign certified fabrics.

MEDITERANEEN - 8880

DEEP GINGER - 7577

# AMPHU JKT M 1643758

New Colors

Ergonomically designed to offer exceptional freedom of movement.

Filled with 250 g of PrimaLoft Gold Luxe, the highest performance synthetic insulation available.

Integrated hood also filled with PrimaLoft Gold Luxe and compatible with the use of a helmet.

Two pockets for the hands with YKK zips.

Adjustable hem with cord lock.

Cuffs with interior elastic.

ACID CITRUS - 8876

MEDITERANEEN - 8880

SHELL, LINING	100% Polyamide
PADDING	100% Polyester
FIT	Regular
SIZES	EU S-3XL   US/CA XS-XXL
WEIGHT	620 g

## FEATURES

Very lightweight hooded jacket with PrimaLoft Gold Luxe insulation. Designed for fast-moving winter activities. Filled with 250 g of PrimaLoft Gold Luxe, the highest performance synthetic insulation available. It combines incredible packability and softness that imitates goose down, all with excellent water repellency for protection against wet weather. Top quality and high thermal capacity. Perfect for high intensity winter activities where weight is a major factor.

With an exterior made of water-resistant Pertex Quantum fabric (PFC-free DWR) and on the inside as a lining a lightweight and hard-wearing 10D Microshell fabric. Very compressible and completely windproof and breathable.

## Specifications

- Regular fit.
- Ergonomically designed to offer exceptional freedom of movement.
- Pertex Quantum outer fabric.
- 10D recycled Microshell interior fabric.
- Filled with 250 g of PrimaLoft Gold Luxe, the highest performance synthetic insulation available.
- Integrated hood also filled with PrimaLoft Gold Luxe and compatible with the use of a helmet.
- Two pockets for the hands with YKK zips.
- Adjustable hem with cord lock.
- Cuffs with interior elastic.
- PFC-free DWR.
- All the fabrics are recycled from the recycling of post-consumer plastic bottles.
- The fabrics are Bluesign certified.

# JUGAL JKT M 1643770

New Colors

- High wind resistance.
- Highly water resistant.
- Very breathable.
- Warm.
- Articulated pattern for greater freedom of movement.
- Hood compatible for use with helmet and 3D adjustable.
- Cuffs with soft elastic fabric.
- Two pockets with zips for the hands.
- Adjustable hems with elastic drawstring.

FABRIC	93% Polyester, 7% Elastane
FIT	Regular
SIZES	EU S-3XL   US/CA XS-XXL
WEIGHT	520 g

## FEATURES

Hooded men's jacket made of bi-elastic, napped Storm fleece fabric. High wind resistance. Highly water resistant. Passes rain test (AATCC 35). Very breathable. Air permeability is 10.4 (ASTM D737). PFC-free DWR. Very comfortable, warm and breathable. Articulated pattern for greater freedom of movement. Hood compatible for use with helmet and 3D adjustable. Cuffs with soft elastic fabric. Two pockets with zips for the hands. Adjustable hems with elastic drawstring. Bluesign approved fabric.

New

DARK STONE-7566

PURE WHITE/AUTUMN GLORY-1287

FABRIC	100% Polyester
FIT	Regular
SIZES	EU S-3XL   US/CA XS-XXL

### FEATURES

Very lightweight technical jacket, windproof, highly breathable, and water-resistant. It is entirely made with recycled and monomaterial fabrics, facilitating recycling at the end of its life, making it an ecodesigned garment to be circular. The MICROSHELL technology of the outer ripstop fabric made of 20D makes this garment innovative and high-performing. Its very low weight and compressed size make it especially suitable for protecting you on the windiest days during both aerobic and more static outdoor activities, or to prevent heat loss once the activity is finished. • Water column of 5,000 mm, to offer great water resistance without being thermosealed. • Excellent breathability of MVP 30,000 g x m<sup>2</sup> x 24h. • Chest adjustment system to allow ventilation when necessary, without fully opening the jacket, preventing overheating while maintaining protection for the rest of the body. • Hood with a wide range of adaptability thanks to the side elastics. • Elastic bottom and cuff adjustments for better user adaptability and to prevent the entry of exterior air. • 1 chest pocket for optimal storage. • Reflective prints to improve visibility. • Compressible jacket in power mesh bag for easy transport. • Outer fabric in 100% recycled Polyester from plastic bottles. • Water repellent treatment (DWR) free of PFCs.

## HELIUM JKT M 1644273

New

PURE WHITE/AUTUMN GLORY-1287

DARK STONE-7566

FABRIC	100% Polyester
FIT	Regular
SIZES	EU S-3XL   US/CA XS-XXL

### FEATURES

Multifunctional technical jacket, semi-warm, windproof, and water-resistant. It is lightweight, compactable, and entirely made with recycled and monomaterial fabrics, facilitating recycling at the end of its life. The outer ripstop MICROSHELL made of 20D provides total wind protection, water resistance, and excellent breathability, while thermal insulation and moisture control are provided by the very lightweight inner lining in WARMSHELL BREATHE. The combination of these two fabrics offers an innovative and high-performance garment, especially suitable for cool and windy days during your most aerobic outdoor activities. • Water column of 5,000 mm, to offer great water resistance without being thermosealed. • Excellent breathability of MVP 30,000 g x m<sup>2</sup> x 24h. • Chest adjustment system to allow ventilation when necessary, without fully opening the jacket. • 1 chest pocket for optimal storage. • Hood with a wide range of adaptability thanks to the side elastics. • Elastic bottom and cuff adjustments for better user adaptability and to prevent the entry of exterior air. • Reflective prints to improve visibility. • Interior lining with POLYGIENE® anti-bacterial treatment. Prevents odors. • Compressible jacket in power mesh bag for easy transport. • Outer fabric in 100% recycled Polyester from plastic bottles. • Inner insulation fabric in post-consumer recycled Polyester. • Water repellent treatment (DWR) free of PFCs.

WEIGHT	205 g

### FEATURES

Very lightweight multi-activity technical Bermuda shorts, made of recycled bi-elastic polyamide from REDCYCLE fishing nets and post-consumer material (130 g/m<sup>2</sup>). The ergonomic SLIM FIT pattern, the adjustable waist with double Velcro strip and the softness of the fabric provide an excellent level of comfort and freedom of movement. Great resistance to abrasion and very hard-wearing.

- Bi-elastic and quick-drying SHELLSTRETCH technology.
- Waist adjustment with double Velcro and belt loops.
- 4 pockets with zips (2 at the front, 1 military style pocket and 1 back pocket).
- PFC-free water-repellent treatment (DWR).
- BLUESIGN® certified fabric.
- Fabric from the recycling of fishing nets and post-consumer waste material.

## RAGGER JKT K 1263753

New

ADRIATIC BLUE-1272

DEEP CITRUS-8875

DEEP GINGER-7577

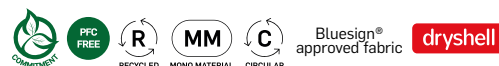

DEEP PINK-1292

FABRIC	100% Polyester
FIT	Regular
SIZES	EU 2-16   US/CA 2-16

### FEATURES

Multi-activity second layer with hood, made in a new, more elastic version of the DRYSHHELL fabric and with a jacquard honeycomb structure to offer greater heat capacity. The fabric is RECYCLED and it is also very breathable and quick drying. Ideal for use throughout the year. Both the fabric and the athletic pattern provide excellent freedom of movement.

- Flat seams.
- YKK FLAT VISLON zips for quicker closing.
- Chin protector to prevent rubbing against the zip.
- Hems and hood finished with elastic trim.
- Good resistance to pilling.
- PFC-free water-repellent treatment (DWR).
- BLUESIGN® certified fabric.
- Polyester from the post-consumer recycling of plastic bottles.
